

## Shahda Al Taie , Technical Officer

Shahda Mazin Al Taie is a Mechanical Engineer with a First Class Honours degree from Heriot-Watt University. Her academic efforts were further recognised when she was awarded the Eric Gibb prize for the best performance for two consecutive years during her course.

At Dubai Carbon, she uses her technical expertise for projects dealing with carbon footprints, emission reduction strategies, and energy efficiency. Shahda plays a pivotal role in the UAE GHG Inventory project, where she handles data analysis and benchmarking, stakeholder communications, quality assurance, and reporting.
