

## Dahlia Haleem

As Assistant Project Manager for Dubai Carbon, Dahlia delivers support on a range of projects. She specialises in managing Clean Development Mechanism (CDM) projects and corporate carbon management strategies, and is also a certified GRI Standards sustainability report writer.

As Assistant Project Manager for Dubai Carbon, Dahlia delivers project support on technical projects and those relating to Dubai Carbon's United Nations Framework Convention on Climate Change (UNFCCC) Clean Development Mechanism (CDM). She brings over 13 years of experience in strategic business development, client relations and technical project management to her role.

Dahlia specialises in managing Clean Development Mechanism (CDM) projects and corporate carbon management strategies, and is also a certified GRI Standards sustainability report writer.

She is instrumental in establishing project timelines, delivering reports and crafting project design documentation in support of successful execution. She also offers general support for Dubai Carbon's Project Management Office (PMO), and is involved in client management and counsel on a daily basis.

She has earned her MSc In Applied Mechanical Engineering from Coventry University, England, and also holds a BSc in Physics with Astrophysics from the University of London.

When not helping power projects to success, Dahlia likes playing the piano, going for long hikes or making time for yoga.
