EXPO 2020 Sustainability Report

Country	United Arab Emirates
Client	DEWA & EXPO
Duration	36 months
Staff Count	3
Total Project Value	AED 845,063 AED

هيئة كهرباء ومياه دبي
Dubai Electricity & Water Authority

DESCRIPTION OF THE PROJECT:

The development of four Sustainability Reports documenting the social, economic and environmental impacts, mitigation efforts and growth during the pre-construction, construction, event and legacy phases of the Dubai World Expo 2020.

DESCRIPTION OF THE SERVICES PROVIDED:

Dubai Carbon provides advisory and project management services towards the development of Sustainability Reports in line with the Global Reporting Initiative's standards. Dubai Carbon facilitates the complete sustainability report development and production process.

IMPACTS REALIZED:

- Cost savings from the early identification and subsequent reduction of energy consumption figures
- Increased transparency and stakeholder confidence
- Improved public perception
- Alignment with global standards of operations and reporting

DESCRIPTION OF THE APPROACH:

- Identifying material topics and key stakeholders to engage
- Gathering required data and verifying information
- Supporting development of content and design
- Supporting launch of final report
